

Australian 6 Day Walk All-Time Ranking List

Last Update: Tim Erickson, 8 October 2024

The Australian 6 Day Walk ranking lists are quite small at the moment, due to the very small number of races on offer. The current list includes almost exclusively performances achieved at either the iconic Colac 6 Day Race that ran until 2005 or the Adelaide 6 Day Race that is now held annually in that city.

It is pleasing to see the increasing number of walkers competing in the Adelaide race. If this trend continues, the ranking list will grow over time.
